

## REMARKS/ARGUMENTS

Responsive to the communication mailed May 2, 2008, Applicant responds in a sincere effort to place the present application in condition for allowance. Apparently the substitute specification mailed with the June 1, 2007 response cannot be located. It may not have been received. Any inconvenience which may have been caused on behalf of Applicant is regretted. Attached herewith is a Substitute Specification in proper technical idiomatic English. This is submitted because of the requirement made in the Office Action dated January 30, 2006. Care has been taken to avoid introduction of new matter during this process.

Also attached as is a separate document indicating by underlining where words have been added in the Substitute Specification and by strike throughs where words have been deleted from the specification as originally filed.

Applicant requests early notice if there are any outstanding issues that have not been addressed in this response. The Commissioner is authorized to charge any additional fees incurred in this application to Deposit Account No. 50-0259. Should the Examiner have any inquiries concerning this matter, please direct telephone calls to the undersigned at (713) 221-1377.

Respectfully submitted,
